

FINCA VIDA PURA

TREES & PLANTS

Welcome Home!

We are very grateful for the opportunity to share our work with you.

We feel blessed to have been living and caring for this land for the past 4 years. When we arrived, we knew close to nothing about land regeneration and agroforestry, and we found ourselves in a deeply degraded and abandoned place. With time, we have learnt how to work in harmony with nature and we have seen a deeply touching transformation of this environment. Not only have we found beautiful, strong trees growing and fruits to be harvested, but also a renewed sense of purpose and belonging in our lives. We hope this can serve as an inspiration for you to see that change is possible, and that Mother Earth becomes so generous and abundant when we treat her with kindness and respect.
